

Wireless Credit Card Terminal

Wireless Credit Card Terminal

- A wireless credit card terminal is a portable payment device that connects over Wi-Fi or cellular networks rather than a physical phone line or Ethernet cable. Payment can be accepted anywhere with minimal restriction.
- They handle the same types of transactions that a traditional countertop terminal does (i.e., chip, tap, and swipe) without being anchored to one place.
- **Use case:** Selling of merchandise for fundraising, collecting mission trip payment during briefing, collecting of love offering during event.

About Wireless Credit Card Terminal

- MO can use the credit card terminal for fundraising or payment for activities purposes.
- To loan the terminal for fundraising purpose, MO must have completed the agency agreement.

Procedure

- To loan the credit card terminal, MO will need to complete the "Credit Card Terminal T-Loan Form" and email it to Ryan at ryan.awyong@charis-singapore.org
- The application will be processed, and if successful, MO will be informed the date and time to collect the terminal from CHARIS office.
- Due to limited quantity of the terminal, application will be handled on a first-come, first-served basis. We regret that if a prior booking has been made, we will be unable to approve the loan at your preferred time.

Dos and Don'ts

Dos	Don'ts
Do collect and return the terminal on time.	Don't pass the terminal to anyone outside of your organisation.
Do keep proper records of all the transaction being made on the terminal.	Don't use the terminal for any purpose other than what is stated in the application form.
Do take good care of the terminal and return it in good condition.	

Additional Notes

- Please refer to the "Credit Card Terminal User Guide" for more information.

Thank you and God Bless!
